Welcome to FEIN – your specialist in metal and interiors.

FEIN is synonymous with extremely reliable application solutions for manual trades and industry when working with metal, timber and composite materials.

Application solutions for drilling, core drilling, sanding, screwdriving and surface processing – FEIN’s wide yet specialised range of power tools and accessories makes it a specialist for the metal industry. 50 years ago, FEIN invented the oscillating multi-tool. Since then, tradesmen have put their trust in THE ORIGINAL. What’s more, FEIN provides specific processing solutions for timber and composite materials too.

We shape the future. 150 years of FEIN. An eternal promise.

Founded in 1867 by Wilhelm Emil Fein, FEIN is now one of the world’s leading power tool manufacturers. Right from the start, the end user has always been at the heart of everything we do and will continue to be so.

As a specialist in solutions, we develop tools, accessories and consumables, which simplify work for users in the areas of metal, timber and composite materials. All developed and produced by FEIN.

As the inventor of the drill, development is part and parcel of our philosophy. For 150 years, we have been developing and building power tools for the future to perfect and simplify the work of our customers on a daily basis.

We shape the future

We are the experts when it comes to drills. After all, we invented them.

In 1895 FEIN revolutionised manual work by inventing the first electric hand drill. Even today, FEIN drills bear the stamp of the same spirit of innovation: The best of 150 years of experience and always in enduring premium quality, whether drills, angle drills or thread drills. There are FEIN drills for almost any situation, with different sizes and shapes, drilling diameters of up to 38 mm and speeds adapted precisely to the material. These tools are perfectly tailored to the work you do, the standards you need to meet, and your way of working. Ergonomically shaped, lightweight, easy to operate and extremely durable, they are ideal for professional

users. The optimised range of accessories and special system components underline the expertise and experience that goes into a FEIN drill.

Drills	Page	4
---------------	-------------	----------

Perfectly suited to the job. Precise, powerful, easy to use.

Angle drills	Page	10
---------------------	-------------	-----------

Makes easy work of drilling round corners. Compact, versatile and powerful, for difficult or narrow locations.

Magnetic drill jigs	Page	12
----------------------------	-------------	-----------

Horizontal, vertical or overhead working: easy to use and flexible, on site or in the workshop.

Tappers	Page	15
----------------	-------------	-----------

Efficient, precise and reliable. The alternative to working by hand.

Reliable connections: the FEIN screwdriver range.

Extremely reliable and custom-made for the intended application, FEIN power screwdrivers produce top-class results and optimum screw connection quality - even in the toughest conditions. Whether in industrial volume production, metal construction, or interior work and renovation. Other benefits of FEIN power screwdrivers include exemplary ergonomics and very low weight, so you can achieve professional, efficient long-lasting results.

Drill/Driver	Page	20
The optimum combination of flexibility, power and reliability. Designed for drilling, tapping and screwdriving in metal.		
Cordless impact wrench/driver	Page	26
Unbeatably efficient and always reliable. Wide ranges of use and can withstand permanent loads.		
FEIN AccuTec	Page	30
Long-life precision cordless drill/driver for soft and hard screw connections in industrial volume production.		
Metal screw gun	Page	37
For safe, consistent working with self-drilling and thread-moulding screws in roof and facade construction as well as heating, air conditioning and ventilation.		
Dry wall screw guns	Page	39
The specialist tools for drywall and interior applications. Lightweight, ergonomic and compact for optimum results.

More than 100 years of working in continuous use: the FEIN grinding specialists.

Experience is everything, especially when like FEIN you are building resilient, user- focused, ergonomic and innovative grinding power tools for industry and manual trades. They come in various performance classes ranging from 350 to 3700 watts and for tough continuous use for example in foundries, steel or shipbuilding. From handy compact angle grinders to extremely powerful and large angle grinders and offering a wide range of straight grinders with a wide high frequency range, FEIN works hard to satisfy every need in the sanding department too.

Motor protection plug

FEIN's motor safety plugs provide reliable overload protection for high-frequency power tools. A bimetallic actuator, which is individually set to the corresponding rated current of the connected high-frequency tool, prevents premature or late activation in the event of brief overloading. The motor safety plug is fitted on the high-frequency power tool's connector cable instead of the normal male connector. The motor safety plug consists of a CEE plug, thermal actuators with temperature compensation and a rotary activation toggle. suited to the 840 series, setting range 1.6 - 2.5 A

Model	Part number	£ List Price excl. VAT

There are many different kinds of metal and our tools can tell the difference.

Corrugated and trapezoid sheet metals, steel plates and profiles all have special requirements. FEIN knows that it's all in the sheet metal working - and that's been the case since 1927. From this long-standing experience, a range of products has been born, which is unsurpassed in its diversity and professionalism. Compact nibblers, the most versatile of tools has unrivalled curve-cutting precision. Metal shears that combine speed, robustness and reliability. Lastly, throatless shears, which are ideal for cutting where swarf loss is to be avoided. No matter what their speciality, all the FEIN metalworking tools have one thing in common: They are perfectly designed for all tasks to be undertaken during the working day.

Slitting shears Page 72

Clean, distortion-free cutting of sheet metals, profiles and pipes - with just one continuous cut.

Sheet metal shears Page 75

The right choice for everyone who values the highest cutting performance in sheet metal and stainless steel.

Nibblers Page 78

Extremely versatile and curve-compatible, particularly suited for trapezoid sheet metals, corrugated sheet metals, profiles and curved single rolled sheets.

Tried and tested technology for perfect results: sawing and milling from FEIN.

High grade steel processing, building kitchens, metal processing and industry – FEIN jigsaws are designed perfectly for the high loads experienced when working with steel and stainless steel. As genuine specialist metal tools, FEIN jigsaws maintain a constant stroke and therefore constant cutting speed even under extreme load levels. The sturdy metal housing and resilient gears make these legendary endurance tools, often last decades. The FEIN range is supplemented by tools for pipe processing: jigsaws for pipes with a diameter of up to max. 440 mm, mainly for plant construction and community supply connections. FEIN also manufactures special pipe milling machines for pipes with a diameter of up to approx. 3 000 mm for plant and pipeline construction.

Metal core drills - the most cost effective drilling experience.

Core drilling is an extremely efficient process: faster, quieter and more accurate than twist drilling. Since core drilling requires no predrilling or retooling, the time needed for the job can be cut by up to around 40 % – on site or in the workshop. The high-quality FEIN magnet core drill units (KBM) can be used with carbide core drills and are suited to many applications such as core drilling, spiral drilling, thread cutting, countersinking and reaming. The FEIN KBB range of magnet core drill units, on the other hand, are designed solely for efficient core drilling. The same applies to the FEIN core bits. High-quality carbides, HSS steels and sophisticated cutting geometries ensure the best cutting performances and very long service life. The world's first hand-guided metal drilling

system, the FEIN KBH 25, combines the benefits of powerful hand drills and carbide-tipped core drills in one. The new drilling technology and specially developed carbide core drill bit make possible flexible, comfortable and rapid work. Whether for steel, stainless steel or aluminium: we've got the right solution for every application, thanks to our extensive range of core bits. The FEIN core drilling system will revolutionise your work!

Mobile Page 96

Flexible hand-guided metal core drilling system with work progress six times faster than twist drilling.

Economical Page 100

Economical magnetic core drills with basic functionality for drilling, which do not compromise on lifetime or performance.

Compact Page 102

Compact magnetic core drills with minimum dimensions for core drilling in tight and difficult-to-reach spots.

Universal Page 108

High-performance universal magnetic core drills with very high quality standards for universal applications.

Clamping fixtures

**Vacuum plate**for anti-magnetic materials and structured bases (corrugated sheet, stud plate etc.)
Vacuum plate 396 x 200 x 95 mm

Part number	£ List Price excl. VAT
9 26 02 057 01 7	544.10

**Vacuum pump**Suction rate 0,015 m³/min, -0,8 bar, 92 W,
weight 2,5 kg including suction hose

Part number	£ List Price excl. VAT
9 26 01 022 01 3	571.86

**Suction plate**

for anti-magnetic materials, 250 x 330 x 110 mm

Part number	£ List Price excl. VAT
9 26 02 054 01 6	523.63

**Pipe drilling device**

incl. clamping strap, for positioning bores on pipes with pipe Ø of 60 to 300 mm, 220 x 130 mm.

Part number	£ List Price excl. VAT
9 26 02 055 01 0	291.04

Cooling

**Pump**

Capacity approx. 450 ml. Suited to FEIN core drilling units KBM 32 Q, KBM 50 QX, KBM 52 U, KBM 65 Q, KBM 65 QF.

Part number	£ List Price excl. VAT
3 21 32 022 00 7	10.98

Replacement hose

for hand pump 3 21 32 022 00 7.

Part number	£ List Price excl. VAT
3 14 14 054 00 8	3.56

**Cutting spray**

300 ml pump spray, for long tool life, optimum cutting performance and enhanced swarf flow.

Part number	£ List Price excl. VAT
3 21 32 031 00 0	16.08

**Cutting paste**

Lubricating agents for working on sheet metals.

Part number	£ List Price excl. VAT
3 21 32 020 12 9	15.48

Other accessories

**Magbrush**

Practical tool with high magnetic force for quick and easy collection of magnetic metal swarf.

Part number	£ List Price excl. VAT

A clean finish: FEIN Dustex.

Dust extractors from the FEIN Dustex range are the ideal solution for minimising dust when working with power tools in industrial settings, in the workshop, or for assembly jobs. The convenient automatic on/off function switches these professional and exceptionally quiet wet/dry dust extractors on and off via the switch on the connected power tool. FEIN Dustex dust extractors also feature a soft start function which reduces the start-up current to avoid unnecessarily tripping lower rated fuses. The dust extractors are supplied with an extra-long power cable and a suction hose, giving the user maximum range and flexibility. FEIN Dustex safety extractors can reliably remove class M hazardous dusts.

Outstanding surface finishes for stainless steel, wood and paint.

When it comes to surface processing, only one factor counts: flawless results. Whether you're sanding or polishing, with the extensive range of FEIN power tools and specially designed professional sets you are in the best possible position to satisfy the exact specified requirements in surface finish. This is equally true for stainless steel machining, woodworking, interior fitting, renovation, vehicle or boat repairs and special vehicle construction. FEIN is the name you can count on: with powerful, virtually indestructible power tools, excellent ergonomics for minimum fatigue and maximum efficiency, and practical accessories – for perfect results. You will find more surface processing products in the chapters on Oscillation and Stationary Belt Grinders.

Sanders

Over 50 years of experience: oscillating power tools from FEIN.

Backed by the unique experience acquired over more than 50 years of oscillation technology, FEIN offers three systems FEIN MULTIMASTER, FEIN SUPERCUT CONSTRUCTION and FEIN SUPERCUT AUTOMOTIVE - which make up an unbeatably versatile and powerful range of oscillating power tools. Each system is synonymous with professional application solutions and unrivalled load handling with a solution for every requirement. The FEIN SUPERCUT is the specialist for interior work with wood, repairing/replacing windows, tile restoration/bathroom renovation, heating/sanitary installation, grout renewal, marine applications and vehicle

glazing. As a universal system, the FEIN MULTIMASTER is the right choice for everyone who strives for a versatile, professional tool. A wide range of accessories opens up a multitude of possible applications.

Starlock: The new system standard for oscillating power tools.

Combined with the new FEIN tools, Starlock enables extremely reliable and fast accessory changes in a record time of less than 3 seconds. It also guarantees a secure fit and therefore optimum power transfer. The result: up to around 35% faster work progress depending on the accessory, noticeably improved precision and reduced noise. The new accessories are of course 100% compatible with all older FEIN oscillators on the market. To protect the individual tools from overload and damage, the system is divided into 3 performance classes: Starlock, StarlockPlus and StarlockMax. What has not changed: New products are continually being added to the range of FEIN genuine accessories, which is the largest

accessory range on the market. The performance potential of an oscillating tool can only be fully exploited with the right accessories. The exceptional quality and service life of FEIN genuine accessories combined with the perfect results delivers excellent value for money. FEIN genuine accessories are always the best choice.

The following table shows at a glance which accessory suits which product:

	STARLOCK 	STARLOCK PLUS 	STARLOCK MAX 	
	Universal Starlock fitting, suitable for all popular multi-function tools.	or all popular multi-function tools with StarlockPlus and StarlockMax fitting and for all FEIN MULTITALENT and MULTIMASTER tools up until 04/16. **HSS saw blade**

Bimetal for long tool life. Set wood teeth. Outstanding tool life, high cutting quality and speed. As "mini circular saw", ideal for long, straight cuts and for making cut-outs in laid parquet, laminate and wall panelling.

Ø mm	Mount	No. in pack pcs	Part number	£ List Price excl. VAT
100	SLP	1	6 35 02 176 21 0	49.98

**HSS saw blade set**

Bimetal for long tool life. Set wood teeth. Outstanding tool life, high cutting quality and speed. As "mini circular saw", ideal for long, straight cuts and for making cut-outs in laid parquet, laminate and wall panelling. The depth stop can also be used with many other FEIN accessories. For accurate working at depth. StarlockPlus fitting, suitable for all popular multi-function tools with StarlockPlus and StarlockMax fitting and for all FEIN MULTITALENT and MULTIMASTER tools up until 04/16.
Scope of supply: 1 HSS saw blade, 1 depth stop (suitable for FMM 350 QSL, AFMM 18 QSL, AFSC 18 QSL, FSC 500 QSL)

**Best of E-Cut accessory set**

Includes 6 different E-Cut saw blades with bimetallic teeth at a special price in a practical plastic storage box. Contents: E-Cut universal saw blades (1 x 28 mm and 1 x 44 mm wide) and E-Cut long-life saw blades (2 x 35 mm and 2 x 65 mm wide).

Mount	Part number	£ List Price excl. VAT
SLP	3 52 22 942 05 0	62.15

**Best of E-Cut accessory set**

Comprising 6 different E-Cut saw blades with bimetallic teeth at a special price. With Starlock mounting, suitable for all popular oscillating multi-tools on the market. Also compatible with Bosch, Makita, Metabo, Ridgid, Skil and many more. Content: 2 each of E-Cut long-life saw blades with widths of 35 mm and 50 mm and 2 x E-Cut universal saw blades, 28 mm wide.

Mount	Part number	£ List Price excl. VAT
SL	3 52 22 952 30 0	39.90

**E-Cut-Combo**

Collection of the 3 most popular FEIN E-Cut saw blades for universal use. Better value than buying items separately. Perfectly equipped for all sawing applications.
Supplied: 1 E-Cut long-life saw blade 35 mm wide, 1 E-Cut long-life saw blade 65 mm wide and 1 E-Cut universal saw blade 44 mm wide.

Mount	Part number	£ List Price excl. VAT
SLP	3 52 22 952 03 0	42.03

**E-Cut long-life saw blade**

Bimetal with set wood teeth for all wood, plasterboard and plastic materials. Outstanding tool life, high cutting quality and speed. Extremely robust, not affected by nails (up to diameter of approx. 4 mm) in wood, masonry etc.
Short, very narrow shape for the smallest of recesses.

Set of accessories for renovating floors

3-part set of accessories for numerous jobs associated with renovating floors. Can be used universally for numerous sawing jobs such as shortening a door jamb, for accurate machining of parquet boards and cutting skirting boards once fitted. But also for removing adhesive residue, elastic sealing materials or leftover carpets cleanly and in their entirety. Attractive savings over purchasing the items individually. With Starlock mounting, suitable for all popular oscillating multi-tools on the market. Also compatible with Bosch, Makita, Metabo, Ridgid, Skil and many more. Contents: 1 x HSS saw blade, segmented, 85 mm in diameter, 1 x E-Cut long-life saw blade 35 mm, 1 x fixed, short spatula.

Mount	Part number	£ List Price excl. VAT
SL	3 52 22 952 22 0	40.76

**Set of accessories for renovating windows**

15-part set of accessories for the most common jobs encountered when repairing and renovating wooden windows. Can be used universally for grinding close the edge in corners and edges without kick-back. Remove old brittle putty or glass retaining strips without the risk of breaking glass and for sawing old timber materials, including those with nails. Attractive savings over purchasing the items individually. With Starlock mounting, suitable for all popular oscillating multi-tools on the market. Also compatible with Bosch, Makita, Metabo, Ridgid, Skil and many more. Contents: 1 x triangular sanding pad (80 mm) with sanding sheets (3 each of grit 60, 80, 120, 180), 1 x HSS saw blade, segmented, 85 mm in diameter, 1 x E-Cut long-life saw blade, 35 mm in diameter.

Mount	Part number	£ List Price excl. VAT
SL	3 52 22 952 23 0	40.76

**Universal set of accessories**

15-part set of accessories. Ideal choice of accessories for all common renovation and repair jobs around the house. Can be used universally for grinding close the edge in corners and edges without kick-back. For sawing all timber materials, including those with nails, or specially for sawing soft materials without overcutting into the edge area. Attractive savings over purchasing the items individually. With Starlock mounting, suitable for all popular oscillating multi-tools on the market. Also compatible with Bosch, Makita, Metabo, Ridgid, Skil and many more. Contents: 1 x triangular sanding pad (80 mm) with sanding sheets (3 each of grit 60, 80, 120, 180), 1 x E-Cut long-life saw blade 50 mm, 1 x saw blade, segmented, 85 mm in diameter.

Mount	Part number	£ List Price excl. VAT
SL	3 52 22 952 24 0	40.76

**Sanitary set of accessories**

3-part set of accessories for many common renovation and repair jobs in sanitary facilities. Cut out tile joints quickly and cleanly, getting right into the corners and edges without overcutting when undertaking partial repairs on individual tiles. Rasp off tile adhesive before laying new tiles. Replace tile joints in their entirety or saw off surplus metal installations flush with the wall and many other tasks. Attractive savings over purchasing the items individually. With Starlock mounting, suitable for all popular oscillating multi-tools on the market. Also compatible with Bosch, Makita, Metabo, Ridgid, Skil and many more. Contents: 1 x carbide rasp (80 mm), 1 x carbide saw blade, segmented, diameter 75 mm, 1 x E-Cut universal saw blade 28 mm.

Accessory sets

Automobile glazier accessory set
Consisting of: 3 L-shaped cutter blades, toothed (form 207);
2 L-shaped cutter blades, toothed (form 208); 1 L-shaped cutter
blade, toothed (form 209); 1 each of U-shaped cutter blade,
reinforced version (form 157 and 111); 2 U-shaped cutter
blades, reinforced version, toothed (form 212); 1 straight cutter
blade, Z-bend with adjustable stop roller (form 143); 1 straight
cutter blade, Z-bend, toothed (form 081).

6 39 03 167 38 3	218.73

Automobile workshop accessories set

Consisting of: 2 U-shaped cutter blades, short side (form 076);
2 U-shaped cutter blades, short side (1x form 079 and
1x form 101); 2 L-shaped cutter blades, toothed (form 207);
1 L-shaped cutter blade, toothed (form 208); 1 U-shaped cutter
blade, reinforced (form 157); 1 straight cutter blade, Z-bend,
with adjustable stop roller (form 143); 1 shovel-shaped scraper
blade, with scrape protection coating (form 129); 1 stopper
knife; 1 HSS saw blade (Ø 80 mm).

Part number	£ List Price excl. VAT

GRIT – The brand for belt grinding from FEIN

GRIT by FEIN – the name that stands for modular belt grinders that are optimally adapted to metalworking and metal machining applications. A highly economical system for all standards and requirements – for belt grinding, deburring, radial grinding or centreless grinding. This system is suitable for all applications involving steel and stainless steel. Powerful basic belt grinders and specific add-on modules cover all the main belt grinding applications in industry and the manual trades. The high quality standards of GRIT machines also apply to our accessories and grinding belts. We believe that grinding belts should be of premium quality – for maximum sanding capacity and outstanding service lives in metal machining. This makes genuine GRIT

grinding belts very cost-effective to use. You will find more detailed information about the GRIT range in the GRIT product brochure or at www.fein.com.

GRIT GHB hand-guided belt grinder **Page** **184**

The belt grinding system for various applications, can be used for mobile or stationary jobs.

GRIT GHB add-on modules **Page** **186**

The perfect addition for GRIT GHB – modules for surface processing, pipe notching and belt grinding.

GRIT GX basic belt grinder for manual trades **Page** **188**

Stationary belt grinders for use in trade and small-scale volume production.

GRIT GX add-on modules for manual trades **Page** **190**

GRIT GI basic belt grinder for industry **Page** **192**

Stationary belt grinders for use in industry and volume production.

GRIT GI add-on modules for industry **Page** **194**

GRIT GKS compact belt grinder **Page** **199**

The space-saving and economical solution for the workshop.

Practical, useful and sometimes essential: the FEIN tailored accessory.

With over 150 years of experience in building power tools, we know what really matters for the most diverse applications and in every industry. This also explains why so much is included in the the basic models of FEIN power tools and why some things are only available as optional accessories. Because what seems indispensable to one person might be superfluous to another. We know that from experience.
